

### **LINES | STORAGEMILANO | CERAMICA BARDELLI**

A collection with a unique character, created from the contrast between the rough surface of cement and the processed surface of metal, **LINES**, in concrete effect gres porcelain for floors and walls, is designed by storagemilano for Ceramica Bardelli. Available in two surface versions (flat or three-dimensional brick effect), it is enriched by incorporating a brass strip insert. The collection that guarantees countless laying patterns is available in three families of colour: light grey, anthracite, mud.
